**STATEMENT OF SONG K. JUNG  
IN SUPPORT OF THE PETITION TO MAKE SPECIAL**

Song K. Jung states as follows:

1. I am associated with the law firm of Loeb & Loeb LLP, and the attorney for the Applicants in the above-identified application. I am a member of the bars of the State of Maryland and the District of Columbia, and a registered Patent Attorney, Registration No. 35,210. I make this Statement in support of Applicant's Petition to Make Special in the above-identified application.

2. The subject matter of the above-identified application is similar to the parent application of the present continuation application and relates to a display apparatus and a method of mounting the same. One such application includes a method of making a liquid crystal display device mountable to a portable computer at edges.

3. There is an infringing device actually on the market.

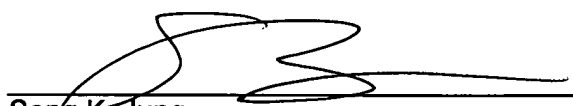

4. A rigid comparison of the infringing product has been made. In my opinion, at least some of the claims in the application are unquestionably infringed.

5. A thorough and careful search of the prior art has been made by the Examiner at the U.S. Patent and Trademark Office and by the Applicants during the examination of the parent application (Serial No. 08/888,164 filed July 3, 1997) of this Continuation Application and the references found through the search are being submitted in an Information Disclosure Statement (IDS) with this Petition to Make Special. I submit that the references being submitted in the IDS include those references found through a search in foreign patent offices from corresponding counterpart foreign applications of the parent application.

Respectfully submitted,
